

The *Vango* Rolling Tarp Solution

Transform your Flatbed trailer into a Van

Vango

The **Vango** gives you all the flexibility of a flatbed trailer with the weathertight advantage of a van trailer.

The **Vango** system is self-sealing and weathertight.

The **Vango** can be opened and closed without climbing on the deck of the trailer.

Skylights and double uplift support bows are standard. 90" and 100" systems are standard. **Vango** tarps can be custom made to any height.

The **Vango** system is easily moved to any position on the trailer. The **Vango** rail is bolted to the rubrail of the trailer and does not affect the loading space of the trailer.

***Vango* Rollup Tail**

The *Vango* rollup tail is “set” on the top of the system. The tail is completely out of the way for loading.

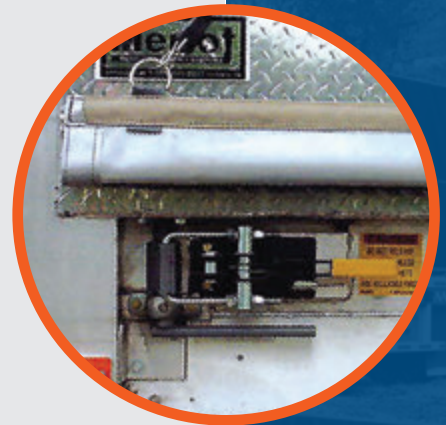

The *Vango* is “Panelized”

A panelized tarp will save you time and money when repairs are needed. A tarp panel can be changed in 90 minutes or less. The *Vango* tarp has no seams and is made from the highest quality fabric in the world.

The *Vango* Front-Locking System

The *Vango* Front-Locking System is conveniently located on the front of the bulkhead. The operator can lock the system without climbing on the trailer.

The *Vango* Rear-Tensioning Device

The *Vango* Rear-Tensioning Device (patent pending) is simple, fast and safe. The operator uses a winch bar to tension the *Vango* system.

Vango

Installation Options

Dropdeck **Vango** - no midpoint connection

Vango on a Car Hauler

Make your **Vango** stand out with color!

Straight Truck **Vango**

Our graphic department turns your **Vango** into a moving billboard!

Protected by U.S. Patents #5,026,109 and #5,080,423. Canadian Patent #2,026,344
